

## Project Overview

As of May 2, 2013

## Stelzer Road Improvements

**Description and Benefits:** Stelzer Road/James Road will be improved from Johnstown Road to just south of E. Broad Street. The corridor will be reconstructed to include a combination of sharrows, bike lanes, shared use paths and sidewalks for improved pedestrian mobility and safety. Lighting, landscaping/street trees, drainage and traffic control features will be upgraded. The streetscape concepts utilized will be coordinated with the International Gateway improvements proposed by the Columbus Regional Airport Authority.

### Status:

In design

**Schedule:** Design began in July 2012 and is scheduled for completion in spring 2014

### Costs:

Estimated construction cost: \$16 million

### Contact Information:

Construction Project Manager: Jamie Gordon, P.E., tel. (614) 645-6068

Designer: MS Consultants

Construction Contractor: TBD
